

## Middle 1 – What we have been up to – Summer Term 5

This term our topic is 'Leisure'. We have looked at things students like to do both in and out of school.

The students all said they like to go to a party so they decided to plan one for a member of staff's birthday. Everyone came in party clothes; we had party food and played some games. Everyone had a great time.

We also celebrated the Royal wedding. We learnt about this all week and linked every lesson to it. We researched facts on the Royal couple in English and made a quiz. We made flowers in art, made scones in maths and did some ballroom dancing in sport. For independent life skills (ILS), the students had an afternoon tea with cake stands that they had designed and made in science.
