

## Middle 4

### What we have been up to!

#### Summer term

During summer term 5, middle 4 have been very busy. We have taken part in lots of different activity days in school and we have been out in the local community to St Thomas' church and Brampton Manor. In computing this term, we have enjoyed controlling things using switches, the interactive whiteboard, eye gaze, remote control toys and bee bots. We have also enjoyed using different instruments in music this term, when we have been learning about Jamaican music, especially using the boom wackers.
