

Orange Class – Spring Term 4

Orange class have been learning about the stone age. We made a cave under the table and drew cave pictures. We had lots of fun!

Orange Class have also been learning all about electricity. We have made circuits and tested to see which materials conduct electricity.

Orange class have also been out into the community. We went to the cafe and all bought a drink. We then went to the local park, where we played on the swings, slides, round about and climbing frame! On the return to school, we stopped off at the shop and had a yummy ice cream!
