

## What silver class have been up to...

What a busy half term we have had! We had great fun on our RE day this term!  
We were learning about what happens at different weddings...

Indian wedding - we tried on different saris and dhotis

Christian wedding - we explored different outfits and venues!

We had Bamboozle come into school this term and we loved it!

We loved listening to the music!

The rain was very funny!

The little bird made some funny noises!

Science has been brilliant this term! We have been learning about water and we have loved experimenting with hot and cold water - we also loved making our very own garden soup!
