

## Upper 4 – Summer Term 5

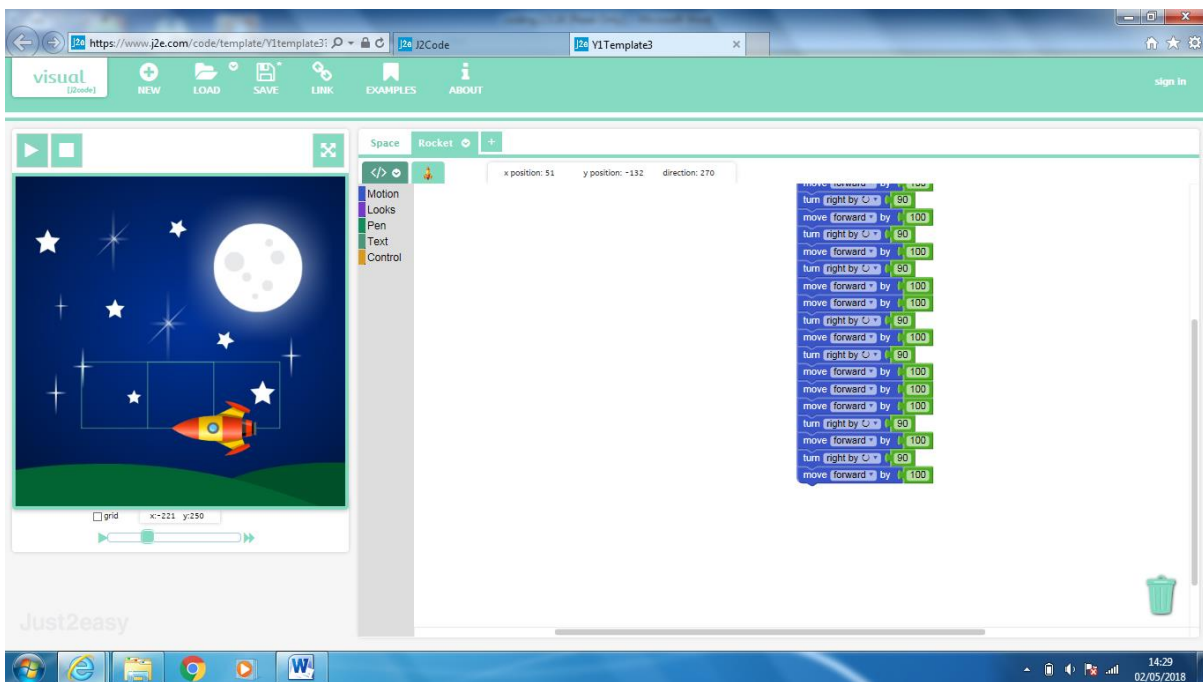

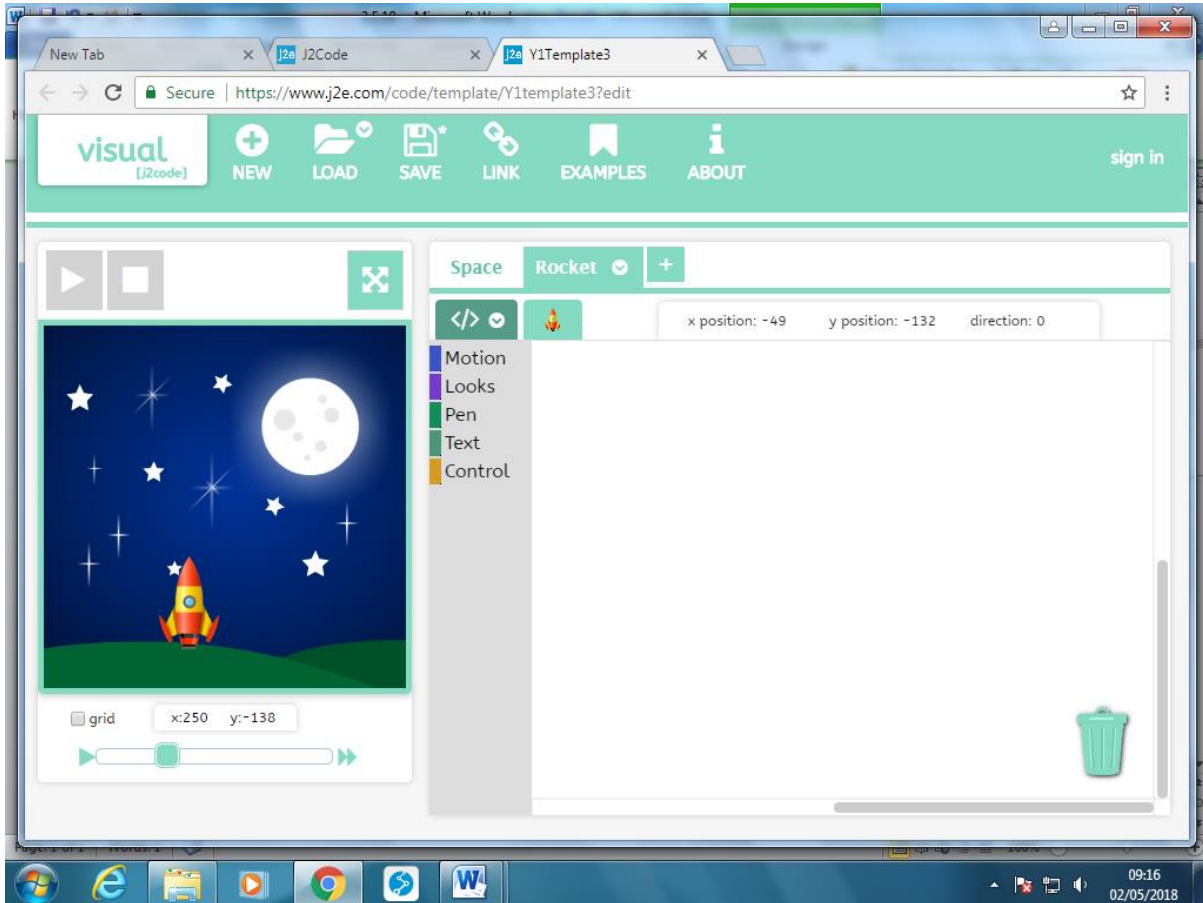

In **science** we have been looking at the human digestive system and studying how it works. In class we re-created it by using everyday items and watched how food was processed through each stage.

In computing we have been looking at algorithms and working on creating code to move widgets around a board.

Learning Objective: To create their own block code

In English the topic is 'The world'. We looked at favourite places to visit in this country and created a travel brochure:

# **Newquay**

## **A place of dreams**

**Come to Newquay for the fabulous beach, the fantastic food fish and chips, the brilliant atmosphere. Great sea, clear blue sky, you can go surfing in the fantastic sea and it's the place of a thousand dreams. Great for the kids and dogs. Get ready for the fabulous five star hotel service.**
